Vault Backup Package Prices

Many companies still trust the backup of their most vital resource - data - to a fragmented and often ineffective policy of distributed tape devices, manual routines, and offsite tape storage. AccessPoint Vault Backup package is a business-class online backup service which addresses the drawbacks of this fragmented approach to backup with a unique service offering:

- ◆ Fully automated process with backups held on disk for rapid file restoration.
- ◆ Secure online transfer of fully encrypted data to an offsite data centre, ensuring regular backups are stored safely and remotely.
- ◆ Sound basis for business continuity planning - whatever happens, your data is safe.
- ◆ Cost-effective solution with an all-inclusive monthly service charge as follows:
